

Magic – exceptionally versatile

Trail activities, Nordic Walking, light hiking routes, city trips or business occasions – wherever you go, our Magic models are reliable companions for stressed feet. The technological concept of these shoes is tuned to a number of diverse uses so that they are perfectly defined for different demands, which means that there is always the perfect Magic for any activity you may choose.

Variofix® 1

A fabric band that is pulled tightly towards the heel when doing up the laces. Lateral stability is ensured by the nylon shell.

Moulded Rips

ensure perfect hold, above all in the forefoot, and stability of super-light shoes. This design guarantees the best breathability.

Toe protection with reinforced TPU cap

Protects the foot; protection is particularly needed in the toe area to prevent injuries.

additionally reinforced with nylon

Contagrip® sole system with XO technology

The Contagrip system protects the foot from below, but at the same time allows natural heel-to-toe movement thanks to the Flex system. The non-slip sole profile ensures optimum grip and prevents you from slipping, even in extreme trail running terrain. The system of the trail runner stands out with its low weight.

Meindl Contagrip® sole – the pros on rough terrain

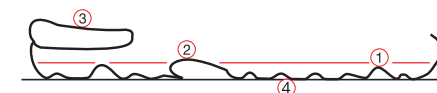

The sole is based on a nylon heel cup that offers high stability and strength. Midsole and shank stabiliser across the entire sole. Non-slip rubber tread with integrated traction control. Tread design and flex system with optimum positioning of studs to support the rolling heel-to-toe movement.

- Contagrip trail runners allow outstanding control, even in extreme conditions
- Special last – wide stance but flat forefoot
- High lateral and twisting stability thanks to shank stabiliser
- Thin mid sole so you can feel the ground under your shoes
- Secure fit
- Extremely stable heel fixation
- Tailored sole concept

Contagrip® sole system

Heel stabiliser ③
